New Western 8ft Pro Plus Snowplow

Brand new heavy duty contractor grade plow. Still wrapped up on the pallets it came with. This is a top of the line plow with quick disconnects, electric over hydraulic system. Weight is approximately 805lbs. Mounts fit a 1992 - 1997 F250 or F350. Purchased last December but never had the chance to install. Plow and mount have been stored inside since then. Located in Hay River but I can assist in delivery to YK. This plow will fit almost any other make and model truck with only a new mount and harness for \$600-\$1200.

Price: \$ 7,250.00

Phone: 867-875-8223
