**2019 CAMSO T4S tracks for ATV**

**Type:** Used  
**Year:** 2019  
**Make:** CAMSO  
**Model:** ATV T4S  
**View at:** Yellowknife, NT, X1A 3N1

Purchased in winter 2019. Used in winter only (no mud, rocks or sand). Bearings oiled every year during storage.

This is a great addition to your quad for winter use (you only have one machine to maintain). These will enable you to go anywhere and haul and pull heavy loads due to the much larger footprint and stability. Help your friends with the big snowmobiles get unstuck LOL !

Those tracks are interchangeable for any ATV over 300cc. You just need to get the correct CAMSO transfer kits for your specific machine.

The advantages of interchangeable track systems: while the number one advantage of interchangeable track systems is their flexibility, there's also a financial benefit to it: it is cheaper to keep the same track systems than purchasing new ones. Interchangeable track systems give you the option to upgrade your ride and keep your track systems longer.

Check here to see the tech info specific for your ride: [https://camso.co/en/powersports/atv-utv/service-and-support/technical-documentation/?docLanguage=en&brand=1509&model=2539&year=2018&trackSystemYear=\\*IC\\*%202018](https://camso.co/en/powersports/atv-utv/service-and-support/technical-documentation/?docLanguage=en&brand=1509&model=2539&year=2018&trackSystemYear=*IC*%202018)

**Price: \$ 2,800.00 or best offer**
