Marlin 1895 GG Stainless .45-70 with JM Stamp

For sale is a beautiful Marlin 1895 Guide Gun stainless in .45-70. Powerful, compact and perfect for moose hunting or bear defence in the bush.

The rifle is in great condition. It has some scratches on the receiver as seen in photos but it's never been hunted with. Beautifully accurate for a lever action in this calibre. It has the desirable "JM" stamp, so it was manufactured at Marlin's old factory where the quality was higher.

The rifle has several upgrades:

- WWG trigger kit
- WWG aluminum magazine follower
- WWG 1-piece ejector
- XS ghost ring sights
- stainless steel blank in factory sight dovetail
- comes with a set of Warne bases should you wish to mount a scope

I can also include several boxes of ammo (Hornady 250gr and Remington 405gr) at a discounted price if desired.

Must have a valid PAL to handle or purchase.

Thanks for looking!

Price: \$ 1,850.00
