Snow Goose Snow Mantra parka, XL

Down parka.

Manufacturer: Snow Goose (predecessor company to Canada Goose)
Model: Snow Mantra
Style no.: 95044
Fill: Goose down
Size: XL
Colour: Red
Made in: Canada

This is the real deal, OG, extremely warm parka which was designed for working in the coldest places on Earth. Fully featured with details for comfort and utility, including: removable coyote fur ruff, fleece-lined interior trims, glove-friendly cuffs, countless pockets (OK, there's 15), reflective stripes, attachment D-rings, vent zippers, and both charcoal emergency kidney warmers in original tins. It has been said that one should not think of this as a coat, but as a portable shelter. https://www.youtube.com/watch?v=Bp_M4EEKQaw

All zippers work, all velcros are clean and and good condition. The only blemish on this classic is some mild fraying on the edge of the right sleeve fleecy cuff — as pictured.

I bought this secondhand last year, but sadly am looking to pass it along, due to moving. Just looking to get most of my money back out of it. "They don't make 'em like this anymore."
