Custom Fender Telecaster - USA - Guitar

Custom partscaster build relic Fender Telecaster/Esquire "Frankencaster". Fender USA Standard tele body. Custom neck, ebony fretboard. Seymour Duncan Hotrails pickup. Modern style low pro bridge. Sperzel locking tuners. High quality wiring, pots, etc. Single volume knob with custom control plate. Strap locks. Guitar is a player and has visible wear from gigs and playing (character chips and dings - nothing effects playability). Action is low and plays fast. This guitar rips heavy music and rock (not your typical telecaster twang). It's bombproof and will last forever. Zero issues. I have an extra pick guard or two if you prefer different colors. \$1100 obo.

Price: \$ 1,100.00 or best offer
