Inline 4 engine with a 16,000 RPM redline and multiple ride modes. The motorcycle is in excellent condition, with all services up to date. In the Canadian market, these models are restricted to 11,000 RPM, resulting in reduced horsepower. This bike has been tuned by "Flashed by Vcyclenut" and is equipped with a Graves slip-on exhaust. Original muffler comes with the bike. Horsepower is now approximately 70 hp. Further details are available at [www.vcyclenut.com](http://www.vcyclenut.com).

This is a cash-only sale, with all transactions conducted in person, and price is non-negotiable.

Test rides are not permitted; however, I am willing to perform ride demonstrations or allow someone to follow me as I showcase the bike's performance.

**Price: \$ 9,750.00**
