Maax Vichy 6032 Heated Whirlpool Bathtub

Are you interested in upgrading your bathroom to include a gorgeous spa tub, without having to wait for delivery to Yellowknife?

The Maax Vichy 6032 bathtub is a stunning product with a 17" soaking depth - much deeper than your average bathtub. Additionally, this unit was special ordered with the whirlpool and heater assembly add ons. Your bath water is reheated as it passes through the jets, ensuring that your relaxing bath does not cool as the jets do their magic.

This item was purchased for a bathroom renovation, but our electrical panel is full and cannot accommodate the electrical requirements of the unit. An average home should be able to manage this tub, but ours is an older trailer and it just didn't work out.

This item is brand new, never installed, and no longer in the original box.

Exact Product Description: Maax Vichy 6032 Acrylic Alcove Right-Hand Drain Whirlpool Bathtub in White (with heater assembly)

You can view the product information at the following link:
