Fish Tank and Shrimp

Fish Tank

Size 20"x10"x12"

Comes with everything you need including a very low maintenance shrimp!

The shrimp is at least 4 years old and does not need to be fed. The only maintenance is changing the filters, cleaning the glass and adding some extra water every 2 months or so. It is best for the shrimp if the tank is a little dirty as that is what he eats. I will donate all our supplies . There are also a few live plants in the tank that require no maintenance.
