Needs struts/shocks, power steering pump, and rear speed sensor. Runs well other than that. Will need a windshield as well. Front bumper has a hole and body has its share of scratches. Has sunroof, power windows/doorlocks, winter tires only have less than 100km on them. Engines always been serviced every 5000km. Nice little vehicle if you put some money into it. Would cost less than \$1000 in parts if your mechanically inclined
