Year:	1999	Drivetrain:	Front-wheel Drive (FWD)
Make:	Volkswagen	Fuel:	Gasoline
Model:	Golf		

View at: Yellowknife, NT, X1A 1V3

1999 Volkswagen Golf

Selling my 99' golf, runs and drives.

Rear suspension is shot and bounces.

Ignition doesn't crank the engine over so there is a switch wired to the starter but starts every time and key still has to be inserted to start.

Comes with a new battery and I also had colour matched rear and front bumpers and headlights sent up from a scrap yard down south, comes with the parts but not installed.

New front brakes and rotors installed last year.

Doesn't have a horn assembly in the steering wheel.

Car has been sitting for about a year but fired right up, just want it gone.

Has winter tires.

Please text me at (867)-445-4978

\$750

Price: \$ 750.00 or best offer
