## Mastercraft Grade 1A Aluminum Multi-Task Ladder,

Design allows use in 4 different positions: twin stepladder, extension ladder, stairway stepladder and as 2 scaffold bases

Once in position can adjust up to 34 possible configurations in 1' (0.3 m) increment height adjustment. Stairway ladder features multiple positions and is good for uneven ground. The ladder fully extends to 14 feet high and can be collapsed to 4 feet high for storage.

I have other ladders I use, and this is taking up storage.

Retails for 215.00
