Fort McPherson wall tent

8x10 Fort McPherson canvas wall tent. Stove jack in front wall. Carry bag and lots of ropes included. Haven't used in quite a while. Lighter weight canvas good for travel/bush flights and shoulder season use. Grommets along roof and wall ridge lines and reinforced corners. Be a good tent for portaging into a moose spot or base camp in the mountains.

One small tear (in photo) patched successfully many years ago and still holding.

Asking 500
