Banks pedal monster

banks pedal monster

Features

150 selectable smooth throttle contours
Smartest, safest, throttle sensitivity controller available
Tip-in Control gradually adds sensitivity below 10 MPH
Reverse Safety returns pedal to stock in reverse (US Patent 10,933,885 B1)
ActiveSafety® failsafe system (US Patent # 10,933,885 B1)
Powered by fused +12v via OBD, not +5v pedal reference circuit like others
Control and view activity in real-time via mobile app or iDash
Simple plug-and-play installation
Warranty friendly. Does not leave footprint

Customize

With 3 driving environments and 150 unique throttle contours, each level allows you to tune out the "dead spots" found in many pedals. Giving you an increase in performance, response, and a whole lot more fun to drive!

City: Provides a smooth driving experience with a linear throttle feel and is tuned for daily driving.

Sport: Adds more sensitivity in the throttle midrange for a sportier throttle contour feel.

Track: This lets you get into your power sooner with less throttle input, helping push through turbo spool lag or delay.
