Y2K beaded flower platforms sandals - Size 7

Beautiful and unique pair of beaded flower platform sandals.

Made from a lightweight, slightly firm foam material (very typical of the late 90s/early 00s aesthetic. Unsure of the exact name, but very nostalgic and common for the era). Perfect for a range of occasions, from beach days to casual outfits.

Vintage piece in excellent, near-new condition with no visible signs of wear.

I personally haven't worn them as they run quite narrow for my feet (I have a wider fit), though I kept hoping they might eventually work.. well, they obviously never did..! lol

Time to pass them on to someone who can truly give them the life they deserve. ?
